

44018

18,000 lb. capacity

1 Provides maximum reliability and durability

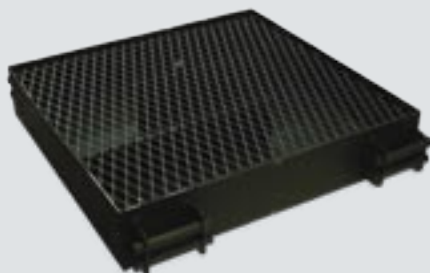

2 Provides technician safety

3 Allows technician to disengage columns simultaneously

4 Accommodates rolling jacks or oil pan

5 Provide positive vehicle tire traction to minimize slipping

6 Provide complete optimization for your Heavy-Duty 4-Post servicing needs

Oil Drain Pan

The 32 gallon oil drain pan reduces the number of times a technician has to stop between oil changes. The oil drain pan is also baffled for splash reduction, keeping technicians clean and professional.

Rolling Jacks – SAJ9

Optional 9,000 lb. capacity rolling jacks allow brake and wheel access, broadening potential service revenue.
